

Firmware Update v1.10.14 – Chazy Control

Release Date: 25 June 2025

What's New

- Fixed an issue where the Dante Controller tab in the WebUI would fail to load under certain network or device states.
- General stability improvements and minor backend optimizations.

Who Should Update

All users of the Chazy Control Box are encouraged to install this update, especially those using Dante Controller as part of their workflow.

Installation

The screenshot shows the 'Firmware Update' page in the Turtle web interface. The page has a dark blue header with the 'TURTLE' logo and the title 'Firmware Update'. Below the header, there are five tabs: 'Upload User EDID 1', 'Upload User EDID 2', 'Upload Decoder Logo Picture', 'Upload Controller Firmware', and 'Upload Encoder or Decoder Firmware'. The 'Upload Encoder or Decoder Firmware' tab is currently selected. The main content area is divided into two sections: 'Encoder' and 'Decoder'. Each section contains a table with columns for ID, IP/MAC, Firmware, MCU Firmware, and SS Firmware. There are 'Update All' and 'Update' buttons for each section.
